PC Plus (September 2007) – Value Award

"This ingenious tool uses a wizard to walk you through the development process, getting the job done in five fairly straightforward steps."

PC Today (February 2007 N° 191) - Nota 8,61

Nos ha gustado:
- Editor de imagenes – Compatibilidad – Plantillas y modelos

Online PC Zeitung (Dezember 2007) - Ausgabe 01/08 - Testurteil: gut 4/5

"Es gelingt auch einem Anfänger in Sachen Website-Gestaltung mit dem Programm ziemlich schnell, eine eigene Website aufzubauen. Unter den 1'000 zur Auswahl stehenden Grafikmodellen, die noch beliebig angepasst werden können, ist mit Sicherheit für jeden Geschmack etwas dabei."
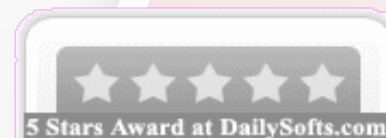

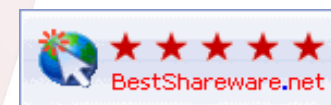

Arab News (October 9, 2007)

"Next, to create the website - even if you have no programming skills at all - you can use the first-class software product WebSite X5. That's correct - one hour from nothing to website. Then, we started playing with some of the advanced functionalities of WebSite X5 Evolution and estimated that we could have had a very attractive ecommerce site up and running in half a day. We went strictly by the instructions demonstrated in the tutorial. It was simple click, drag, drop to create the website."

PC MAGAZINE (Editions Larivière, n° 233 Octobre 2007)

"C'est en cinq étapes successives que WebSiteX5 Evolution impose une très logique méthodologie de réalisation. La création de sites Web n'est plus réservée aux spécialistes du HTML. Le "tel écran, tel écrit" ou wysiwyg (what you see is what you get) ouvre en effet de larges possibilités aux allergiques à la programmation."
